

# CRITICALAIRE

**BADGER METER**  
Fluid flow measurement

**AIRCUITY**  
Central sensor systems for indoor environmental quality and energy savings

**GLOBAL PLASMA SOLUTIONS**  
Bi-polar ionization systems for indoor air quality and demand control ventilation strategies

**SAGE METERING**  
Thermal mass flow meters for energy conservation and process efficiency

**PHOENIX CONTROLS**  
Critical environment control systems

**STROBIC**  
Exhaust fans and exhaust systems for laboratory fumes

**EBTRON**  
Thermal dispersion airflow measurement products

**STERIL-AIRE**  
Global leader in high-output ultraviolet germicidal solutions for improved indoor air quality and energy efficiency

**ENVERID**  
ASHRAE Product of the Year 2018. Improve energy efficiency and indoor air quality in buildings using the innovative HVAC Load Reduction® (HLR®) module by reducing Outside Air in compliance with ASHRAE 62.1 and the Indoor Air Quality Procedure.
